Technical Data Sheet

LOXEAL 85-02

Description
Fast curing high temperature resistant. High strength anaerobic adhesive for locking and sealing threaded connections and retaining of cylindrical parts. Medium thixotropic effect, allows larger machining tolerances. Highly resistant to corrosion, vibrations, water, gases, oils, hydrocarbons, and many chemicals

Physical properties
* Composition: anaerobic methacrylate
* Colour: green
* Fluorescence: under blue light
* Viscosity (25°C - mPa.s) 3000 – 4000 thixotropic
* Specific weight (25°C - g/ml): 1,1
* Gap filling: M36 / 1- ½ " - 0,20 mm
* Flash point: > 100°C
* Shelf life 25°C: 1 year

Curing performance
Curing rate depends on the assembly clearance, material surfaces and temperature. Functional strength is usually reached in 1 – 3 hours and full curing takes 24 – 36 hours. In case of passive surfaces and/or low temperature a fast cure can be obtained using Loxeal activator 11.

Curing properties
Zinc plated bolt M 10 x 20 - quality 8.8 - Nut h = 0,8.d at 25°C
* Handling cure time: 2 - 5 minutes
* Functional cure time: 1 - 3 hours
* Full cure time: 2 - 4 hours
* Shear strength(ISO 10123): 25 - 30 N/mm²
* Locking torque(ISO 10964): breakaway: 30 - 40 N.m
  prevailing: 55 - 70 N.m
* Retained torque at 150°: 60 - 70 %
* Temperature range: -55 +150°C

Directions for use
The product is recommended for use on metal surfaces. Clean and degrease parts before bonding with Loxeal Cleaner 10.
Apply product to fill completely the gap, assemble parts and hold on for curing time. Liquid product can damage coating, some plastics and elastomers and late stress-cracking events might be induced if used with some thermoplastics. For application on non metal materials, contact Loxeal Technical Service.
For disassembly, use normal tools and eventually heat pieces at 150/250°C, remove any residue of cured product mechanically and clean parts with Acetone.

Storage
Keep product in a cool and dry room at no more than +25°C. To avoid contaminations do not refill containers with used product. For further information on applications, storage and handling contact Loxeal Technical Service

Safety and handling
Consult Material Safety Data Sheet
